DETAILED ACTION

1. Claims 1-18 are allowed and renumbered as 1-2, 11, 13-16, 12, 17, 3-10 and 18, respectively.

2. The following is an examiner's statement of reasons for allowance:

The cited art taken either singly or in combination with other prior arts fails to anticipate or fairly suggest the claimed limitations in independent claims 1 and 18 in a manner which would warrant a rejection under 35 U.S.C. § 102 or 35 U.S.C. § 103, especially when these limitations are considered within the specific combination claimed.

The cited art, U.S. Pat. No. 6,689,664 to Park, discloses a method for fabricating a semiconductor transistor but it fails to teach or fairly suggest, among others, at least the method steps of: forming a first trench by selectively etching the first oxide layer, the first nitride layer and a first portion of the substrate; forming a second trench defining a channel region therebeneath by selectively etching the first oxide layer, the first nitride layer and a second portion of the substrate; forming a gate oxide layer on lateral sides and a bottom side of the second trench, especially when these steps are considered within the specific combination claimed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
